

ANNOUNCING A PARTNERSHIP

FOR
THE ALBERTA CRITICAL INCIDENT PROVINCIAL NETWORK (ACIPN)
WITH
WAYFOUND MENTAL HEALTH GROUP INC.

Wayfound and The Alberta Critical Incident Provincial Network (ACIPN) are partnering in a mutual effort to continue enhancing the coordination of mental health resources for public safety personnel in Alberta. Wayfound is offering ACIPN Peers a referral source to ensure those they support within their role as a peer can link to timely and competent formal mental health resources. The mission and values of Wayfound and ACIPN align well with their commitment to support ACIPN peers as they support their frontline colleagues.

Wayfound offers a streamlined referral process for psychological assessments and treatment for the peers supporting a person who may need rapid access to professional mental health services. Wayfound Psychologists are available virtually by video conference or in-person in Calgary, Edmonton, and Red Deer, with all clinicians registered in Alberta and approved WCB providers. Wayfound is providing both non-urgent referrals and 24-hour access for urgent referrals. ACIPN believes this will strengthen the peer network's ability to provide the best possible support to members experiencing mental health stress related to their job.

A peer-led, peer driven, peer support network of public safety personnel for public safety personnel.
